

Instruction for hydraulic pump

V-30225110 & V-30225120

ANV020

EN

The type of hydraulic pumps delivered as spare parts has changed. The spare part numbers of the pumps are the same as before.

For installation and sales of hydraulic pumps the following should be remembered:

Tractors up to chassis number 607100:

If the pump is of a new type is installed instead of the old a connection pipe must also be delivered.

Hydraulic pump V-30225110

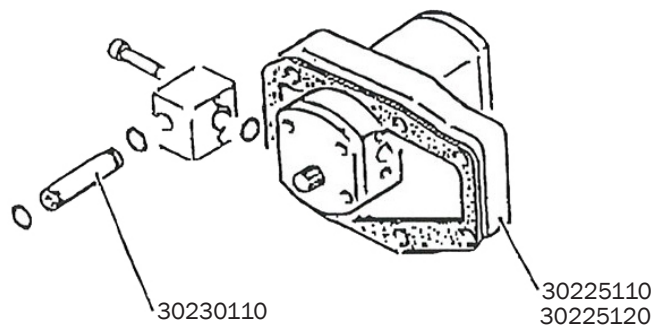

Connection pipe V-30230110

Tractors from chassis number 607101:

The new pump is interchangeable with the old.

Hydraulic pump V-30225120

As the new pumps are slightly longer than before, in some cases the PTO guard and the top rod bracket must be modified so that the pump can be installed in position.
